(54) **NEW ORAL MEDICAL PREPARATION**

(57) Abstract:

PURPOSE: To provide the subject medical preparation in which a long-term shelf life of omeprazole is secured.

CONSTITUTION: This preparation is composed of a core part containing omeprazole and an alkaline compound, an alkaline salt of omeprazole or an alkaline salt of omeprazole and an alkaline compound, one or more intermediate layers formed on the core part and an enteric coating film formed thereon. The above-mentioned intermediate coating layer is composed of a tablet

vehicle soluble or rapidly degradable in water, a water-soluble film-forming polymer compound or a pH-buffering alkaline compound and a tablet vehicle soluble or rapidly degradable in water or a water-soluble film-forming polymer compound, provided that an oral medical preparation having the core part composed of omeprazole and an alkaline compound and an intermediate layer composed of two or more layers where the core part side intermediate layer contains the pH-buffering alkaline compound is excluded.
